# What is the customer purchase decision based on?

LOWEST COST

Micro800™ controller

SCALABILITY / FLEXIBILITY

CompactLogix™ /  
ControlLogix® controllers

SAFE / SECURE / SIL rated

AADvance Trusted®  
controllers

# ControlLogix® 5580 controller

## High performance

- 1 Gb Ethernet port supports Integrated Motion on EtherNet/IP
- Up to 45% increased memory capacity
- Integrated Motion on EtherNet/IP up to 256 axes

## Enhanced productivity with Logix

- Onboard display allows for enhanced diagnostics and troubleshooting
- 2 GB Secure Digital (SD) card ships with the controller and provides nonvolatile memory and permanently stores user programs and tag data
- Controller task monitor now part of the embedded webpage
- Common control engine and one development environment for optimized productivity

## Security capabilities

- Three-position keyswitch provides mode selection and added security
- Digitally signed and encrypted controller firmware
- Controller-based change detection and logging
- Role-based access control to routines and Add-On Instructions

Released

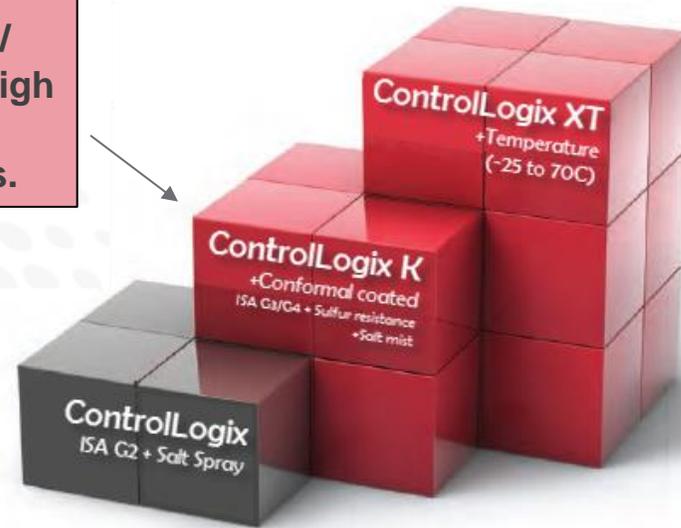

## IEC 62443-4-2 Certification

Security certified 5580 Controller,  
Security Level 1 (SL1)

- Independently certified by TUV Rheinland to 62443-4-2 Security Level 1
- Compliant with 62443-3-3 security architectures.

-K - ISA G3 / salt mist and high sulfur atmospheres.

v33 (May 2020 Target)

## 5580 eXtreme controllers

Next generation of the 1756-L73XT controller

- -25 °C to +70 °C
- Convection cooled design
- No fans, No filters and No maintenance
- Maintains same product certifications as the standard product
- Tested to ANSI/ISA-S71.04-1985; Class GX Standards

## 5580 No Stored Energy (NSE)

Next generation of the 1756 NSE controllers.

- For use in hazardous zone applications such as under ground mining and refineries requiring energy discharge to less than 200uJoules

V33 (May 2020 Target)

## 5580 High Availability

V33 (May 2020 Target)

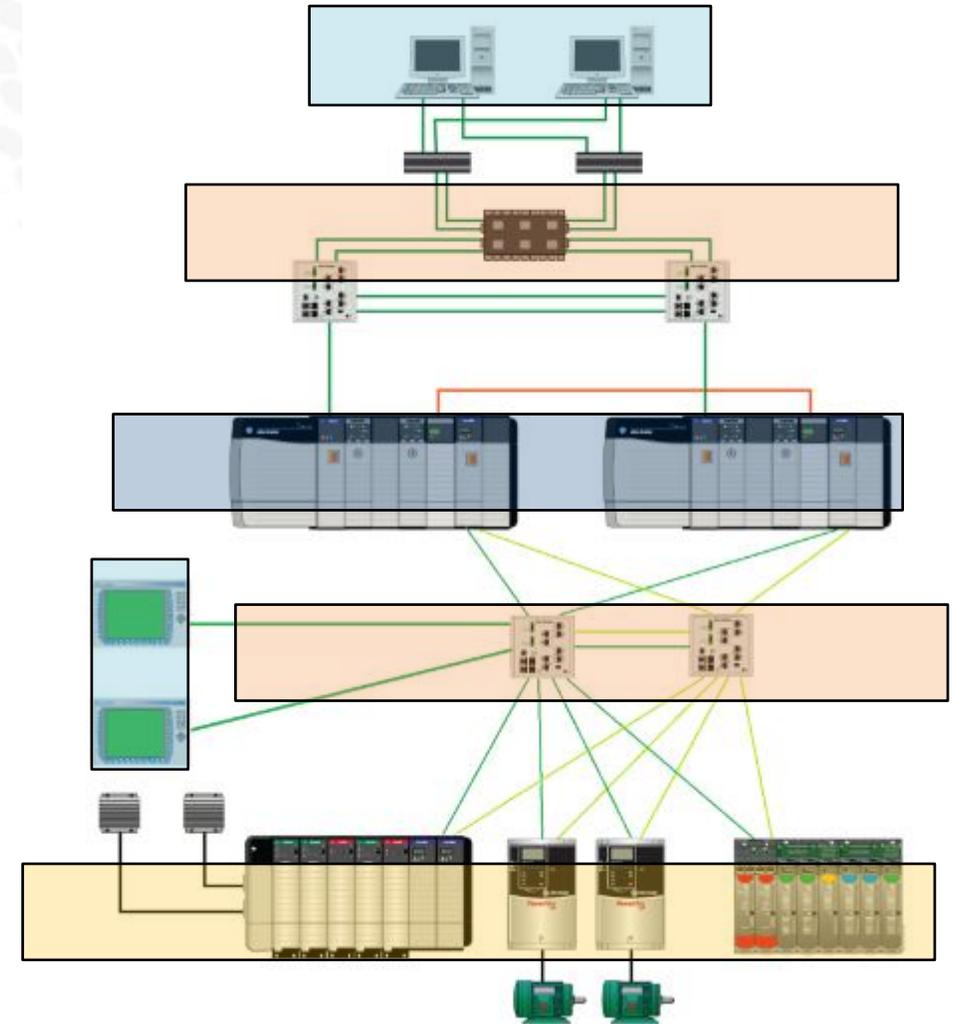

- Support for 5069 and 5094 I/O
- No decrease in user memory when enabling redundancy
- Configured Alarms Support
- Supports DLR or PRP

# High Availability Throughout the System

PlantPax® System differentiates by Scalability: Scale availability needs to the locations that are most critical

- **I/O Redundancy** – Availability of device communication
  - 1715 I/O
- **Controller Redundancy** – Availability of Control actions
  - 5580, CompactLogix™ Hot Backup\*
- **Server Redundancy** – Availability of Operator Interactions
  - FactoryTalk® View HMI Servers
  - Application Servers
  - Data Servers (FactoryTalk Linx)
- **Network Redundancy** – Availability of Network / Communication Paths
  - Stratix® Managed Switches
  - DLR and PRP support
- **Virtualization** – Virtual PCs on Physically Redundant Servers

**PlantPax**  
Distributed Control System

# 1756-EN4TR Communication Module

1756-EN4TR - Greater Security and Higher Performance

## Overview

General purpose communication module to support our customers' growing need for continuous improvements in performance, capacity and security related concerns.

## Key Features

- CIP Security
- 10M / 100M / 1 Gig Ports – Qty 2
- 256 Axes of Motion
- SD Card for Firmware, Configuration and Fault Logs
- Initial release supports DLR
- Integration with the Rockwell Automation EcoSystem
- Note: Redundant Adapters Future Firmware (Q2 FY20)

## Customer Benefits

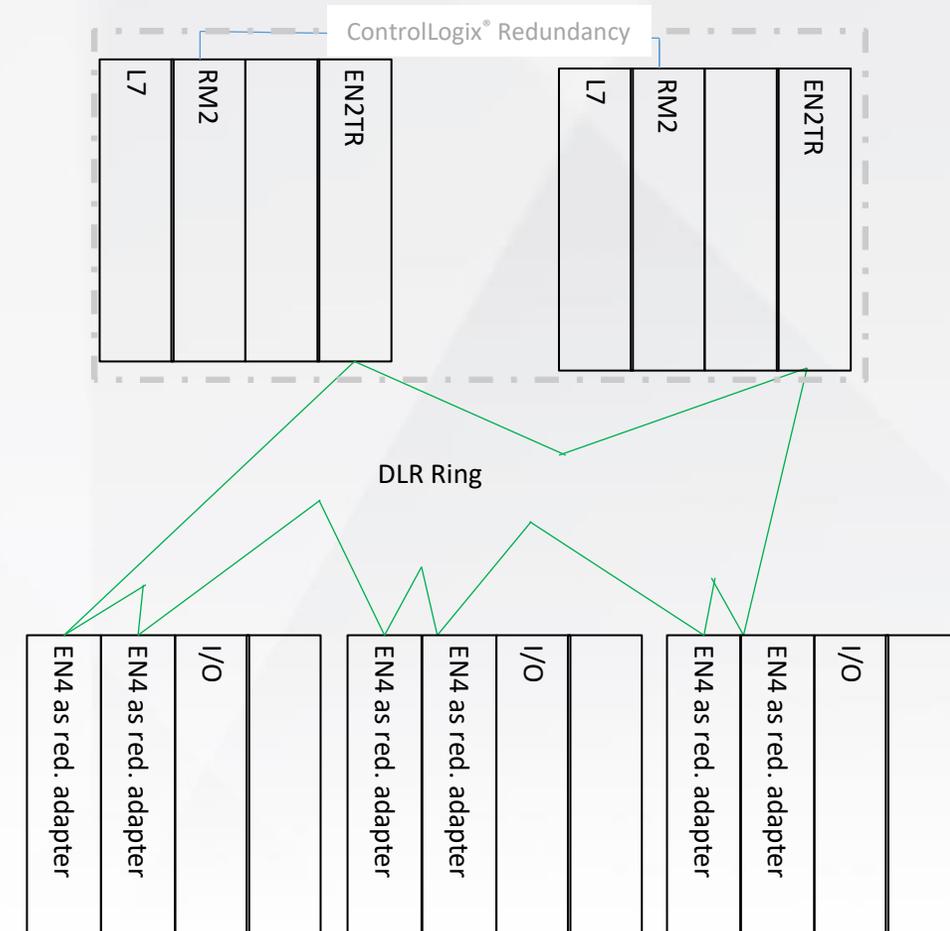

- Higher throughput for increased productivity
- 2x axes of motion compared to EN3TR
- CIP Security provides authentication between devices, integrity of data, and optional encryption of data.
  - Authentication: CIP Security prevents unauthorized connection to devices
  - Integrity: CIP Security prevents the modification of or tampering with data
  - Encryption: CIP Security prevents the viewing of sensitive data

# 1756-EN4TR: Redundant Adapters

Action Today: Begin communicating and positioning 1756-EN4TR design solutions with customers

- Targeted Q2 FY20
- Firmware update, no hardware changes required
- Topologies supported
  - Star
  - DLR Ring
- Redundant Adapter is for I/O chassis only
  - For controller chassis, use ControlLogix® Redundancy to provide redundant communication modules

# 1783-CSP: CIP Security Proxy

1783-CSP - Integrate CIP Security for legacy and non-CIP Security Embedded Products

## Overview

Target AFC: Q2 FY20

Standalone hardware solution that will facilitate Secure Communications

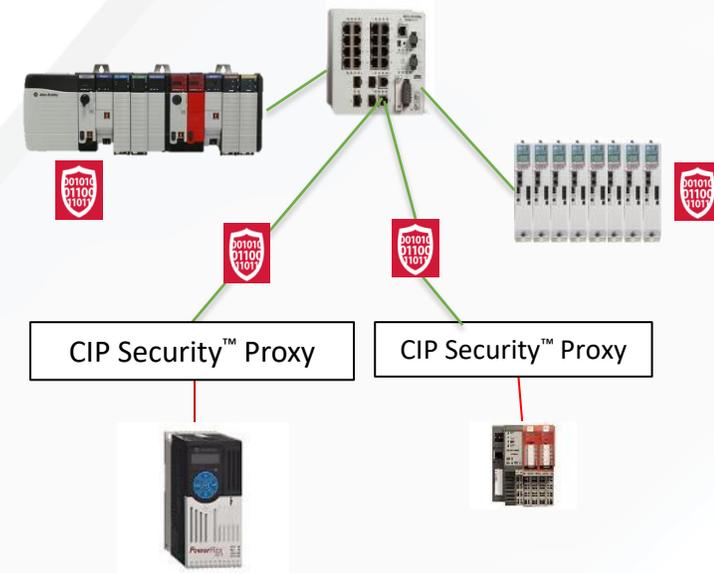

Installed equipment that is not CIP Security capable can be interfaced through the CIP Security Proxy – establishing secure communications across the network

## Key Features

- CIP Security
- 10M / 100M / 1 Gigabit Ports on the network side
- Support For DLR on network side
- Security Event Generation
- Integration with the Rockwell Automation EcoSystem

## Customer Benefits

- Allows customers with non-CIP Security embedded products to define and implement their unique migration roadmap to a CIP Security architecture
- Path forward for non-CIP Security capable products

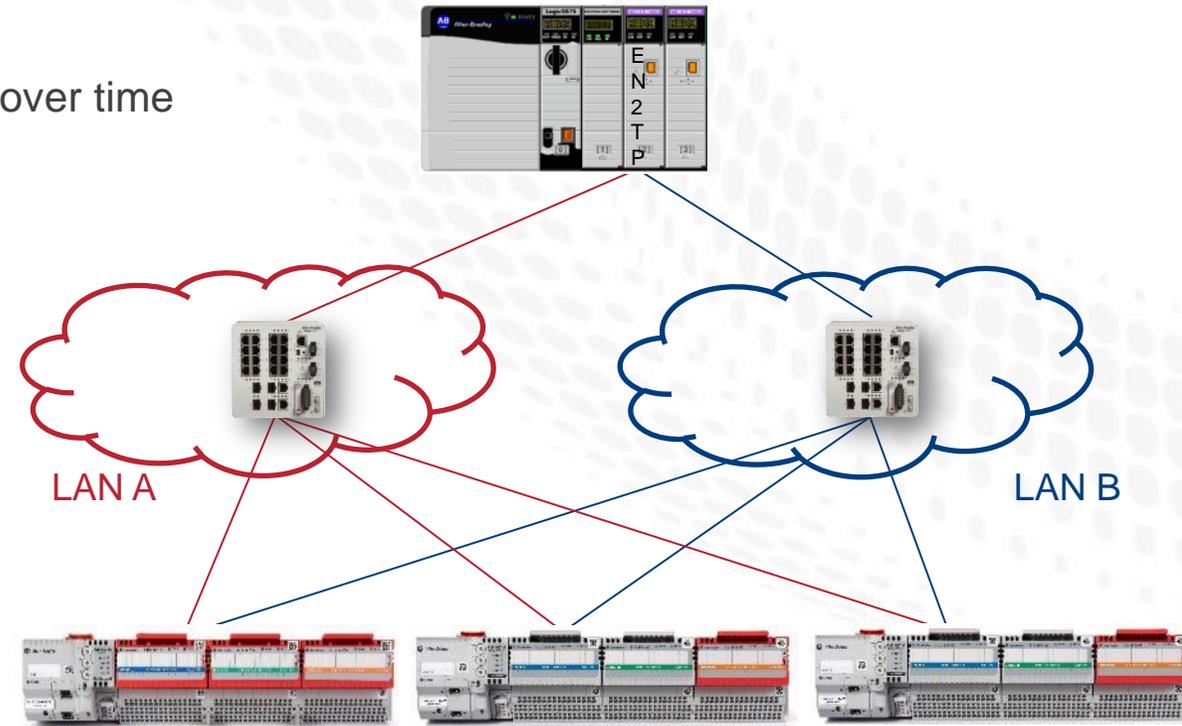

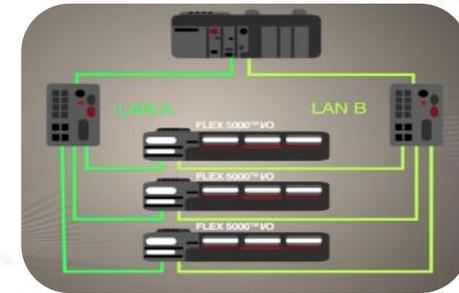

# FLEX 5000 Parallel Redundancy Protocol

## Features and Benefits

- PRP feature added to all FLEX 5000 EtherNet/IP adapters with 4.011 firmware version
- Provides a redundant network infrastructure for high availability, helping minimize the risk of downtime
- IEC 62439 -3 compliant
- Same packets sent out of both ports to eliminate network switchover time
- PPS performance 50K vs 100K for DLR.

## Applications

- Process Applications where customer requires redundant network infrastructure
- ControlNet media redundancy migrations
- For customers that require redundancy beyond a ring topology

CompactLogix™ 5370

CompactLogix™ 5380

CompactLogix™ 5480

# CompactLogix™ Controllers

- **5370 Controllers**
  - Optimal Performance Standard and Safety Controllers (SIL3/PLe)
  - Linear and Device Level Ring (DLR) network Support
  - On-Machine™ Version
- **5380 Controllers**
  - High Performance Standard and Safety Controllers (SIL2/PLd)
  - Dual IP and Device Level Ring (DLR) network Support
  - Enhanced Security
- **5480 Controllers**
  - Logix based real time controller with Windows 10 IOT OS
  - Multiple Ethernet and communication options
  - Enhanced security features

# CompactLogix™ -K

For harsh environment applications

Rockwell Automation expands the CompactLogix™ conformal coated product portfolio.

The CompactLogix™ -K is a globally stocked and readily available product and is recommended for all applications requiring corrosion protections in environments.

Catalog No	Technical Description
1769-L37ERMSK	Compact GuardLogix® CPU, L37ERMS, 4M/1.5M
1769-L37ERMK	CompactLogix™ 4MB controller
1769-L38ERMK	CompactLogix™ 5MB controller
1769-L38ERMSK	Compact GuardLogix® CPU, L38ERMS, 5M/1.5M
1769-ECRK	CompactLogix™ Right End Cap
1769-IA16K	CompactLogix™ 16 Pt 120VAC D/I Module
1769-IF4K	CompactLogix™ 4 Pt A/I C and V Module
1769-IF8K	CompactLogix™ 8 Pt Analog Input Module
1769-IQ16K	CompactLogix™ 16 Pt 24VDC D/I Module
1769-IQ32K	CompactLogix™ 32 Pt 24VDC D/I Module
1769-L24ER-QBFC1BK	CompactLogix™ 750KB DI/O AI/O Controller
1769-L30ERMK	CompactLogix™ 1 MB Motion Controller
1769-L32EK	CompactLogix™ 750KB Enet Controller
1769-L33ERMK	CompactLogix™ 2 MB Motion Controller
1769-L33ERMSK	Compact GuardLogix® CPU, L33ERMS, 2M/1M
1769-OA16K	CompactLogix™ 16 Pt 240VAC D/O Module

Available for sale

Catalog No	Technical Description
1769-OB16K	CompactLogix™ 16 Pt 24VDC D/O Module
1769-OB32K	CompactLogix™ 32 Pt 24VDC D/O Module
1769-OB8K	CompactLogix™ 8 Pt 24VDC D/O Module
1769-OF2K	CompactLogix™ 2 Pt A/O C and V Module
1769-OF4K	CompactLogix™ 4 Pt A/O C and V Module
1769-OW16K	CompactLogix™ 16 Pt D/O Relay Module
1769-PA2K	CompactLogix™ AC 2A/0.8A Power Supply
1769-PA4K	CMPLX Selectable AC 4A/2A Power Supply
1769-PB2K	CompactLogix™ DC 2A/0.8A Power Supply
1769-PB4K	CompactLogix™ DC 4A/2A Power Supply
1769-SDNK	CompactLogix™ DeviceNet Scanner Module

Available for sale

ANALYSIS

## Scalable compute portfolio / Benefits & Use cases today

### Industrial personal computers (PCs) and thin clients

- Industrial PCs for local applications such as FactoryTalk® View ME
- Thin clients, along with the ThinManager® software, provide an efficient system to manage content centrally

### ControlLogix® compute module

- Rack-based computer
- API built for access over the backplane for high speed needs
- Current customer use cases mainly reflect these benefits:
  - Communication Gateway
  - Embedding custom program for High Speed Logix Connection

### CompactLogix™ 5480 controller

- A high-performance Logix controller for motion applications
- Common Customer Feedback:
  - For Motion users who do not want Windows
  - For Windows users to benefit without price premium or Logix power

# Chassis & Distributed I/O

## Rockwell Automation® Platform Positioning

- CL18- FLEX 5000™ I/O: Use Standard and Safety in One Application
- CL15 - Smart Devices: Enabled with IO-Link Technology
- PR20 - I/O Solutions: Apply High Availability, Functional Safety & Intrinsic Safety in High Performance Process Applications
- SS08 - What's New and Coming Soon in Safety Automation Architectures

### ControlLogix®

#### Chassis-based I/O

- I/O diagnostics for detection of both system and field-side failures
- Electronic keying to help prevent replacement errors
- Wide range of modules from high performance to process control

### FLEX™, FLEX 5000™

#### Process Distributed I/O

- High-performance FLEX 5000™ I/O for CompactLogix™ 5380 and ControlLogix® 5580
- High-channel density on a distributed platform

### 1719 Ex, 1718 Ex Intrinsic Safety

- 1719 Ex I/O for hazardous area locations (Safe / Zone 2)

#### NEW for 2019

- 1718 Ex I/O will ship Q4CY19
- Certified for Zone 1 mounting (Zone 1 I/O, Div. 1 field devices).
- Modules offered will be similar to 1719

### 1715 Redundant

#### High Availability I/O

- 1715 Redundant I/O provides high availability for ControlLogix® controllers

#### NEW for 2019

- DNV-GL marking for marine applications Q3FY19 
- IEC61508 edition 2 compliance Q3/Q4CY19

### Compact I/O™, Compact 5000™

#### Discrete Machine I/O

- High-performance Compact 5000™ I/O for CompactLogix™ 5380 and ControlLogix® 5580
- High-density Compact I/O™ for CompactLogix™ 5370

#### NEW for 2019

- IB8S ← Digital Safety Input
- OBV8S ← Digital Safety Output

### POINT I/O™

#### Smart Machine Distributed I/O

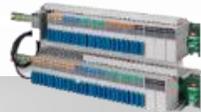

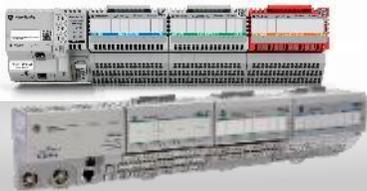

- Low-cost platform with lower density inputs and outputs
- Compact design makes installation easier
- Machine safety, specialty and IO-Link options available

### ArmorBlock®

#### On-Machine™ I/O

- IP67, IP67, IP69K rated modules
- Reduces wiring and panel space
- QuickConnect for tool changing application
- Analog, Digital, specialty, machine safety and IO-Link options available

# FLEX 5000™ I/O

Integrated control and safety

## Rugged Design

Operating Temperature:  
-40 °C...70 °C  
(-40 °F...158 °F)

Extreme Environments:  
Class G1, G2, and G3

Hazardous Environments:  
Class I, Div. 2  
Zone 2 Groups A, B, C, D, E, F

## Performance

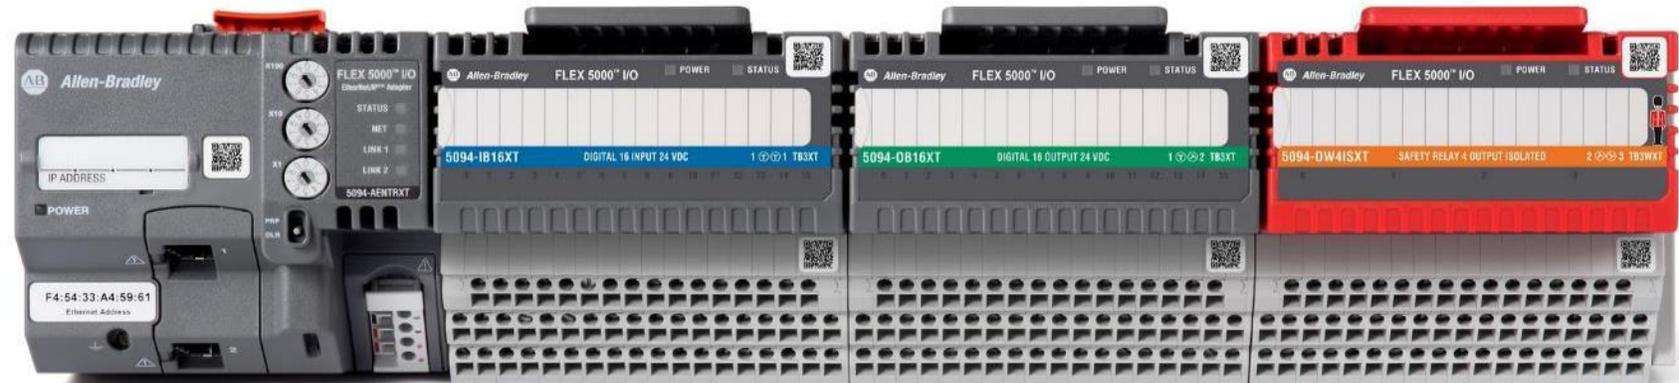

1 Gigabit (Gb) EtherNet/IP™  
1 Gigabit (Gb) Backplane Speed

## Standard I/O

32 Channel Digital In/Out  
8 Channel Analog In/Out

## Safety I/O (SIL 3, PLe, Cat. 4)

16 Channel Digital In/Out  
4 Channel Analog In/Out

## Network Media and Topologies

2 Copper/2 Fiber Ports  
Supports Device Level Ring (DLR), Star,  
Linear, Parallel Redundancy Protocol (PRP)

## Easy snap-on installation

Removal and Insertion Under Power  
(RIUP)

## Consistent I/O Wiring

Direct Termination of 2, 3 & 4  
wire devices

Distributed I/O for ControlLogix® 5580 controller, **GuardLogix® 5580 safety controller**  
Distributed I/O for CompactLogix™ 5380 controller, **Compact GuardLogix® 5380 safety controller**

# FLEX 5000™ I/O

## Discrete safety I/O

### Safety digital 16 input

Shipping

- SIL 3, PLe, Cat. 4 single channel
- 6 ms safety reaction time
- 8 test output: pre-assigned
- Test output rating: 0.2 A
- Overload detection with test output

### Safety digital 16 output

Shipping

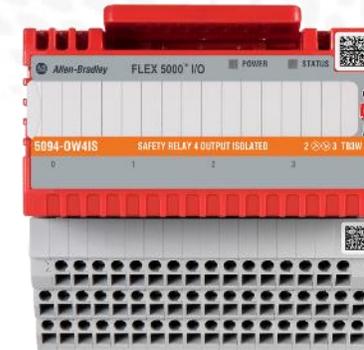

- SIL 3, PLe, Cat. 4 single channel
- 4.5 ms safety reaction time
- Output rating: 0.5 A
- 1.5 A surge current for 150 ms\*
- Safety mode, safety pulse mode

### Safety Relay 4 output

Shipping

- SIL 3, PLe, Cat. 4 single channel
- 20 ms safety reaction time
- Output rating: 2 A / 4 A – 2 Channels
- 100K cycles @ 2A resistive load
- Safety mode

\*Conditions apply

See [FLEX 5000™ modules technical data](#) (5094-TD001) for more details.

# FLEX 5000™ I/O

## Release schedule

### Distributed I/O for

- ControlLogix® 5580 Controller
- CompactLogix™ 5380 Controller
- CompactLogix™ 5480 Controller
- GuardLogix® 5580 Controller
- Compact GuardLogix® 5380 Controller

June 2018

September 2018

April 2019

Q2 CY2019

### Standard

Catalog	Description
5094-AENTR	EtherNet/IP Adapter RJ45 8 I/O
5094-AEN2TR	EtherNet/IP Adapter RJ45 16 I/O
5094-IB16	16 Point Digital Input
5094-OB16	16 Point Digital Output
5094-OW8I	8 Channel Relay Output Isolated
5094-IY8	8 Channel Universal Analog Input
5094-OF8	8 Channel Analog Output
5094-HSC	2 Channel High-Speed Counter
5094-IF8	8 Channel Analog Input

Available for sale

### Network Support

Catalog	Description
5094-AENSFPR	EtherNet/IP Adapter SFP
5094-AEN2SFPR	EtherNet/IP Adapter SFP

Available for sale

### SIL 3 Safety – Digital

Catalog	Description
5094-IB16S	16 Pt Digital Input Safety
5094-OB16S	16 Pt Digital Output Safety

Available for sale

### SIL 3 Safety Relay, Network Support

Catalog	Description
5094-OW4IS	4 Point Relay Output Isolated Safety
PRP Firmware	PRP Adapter Support

Available for sale

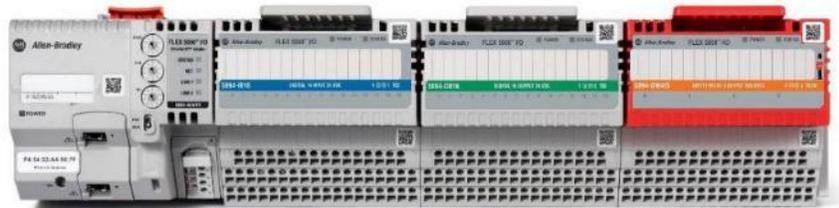

### Catalogs Available in 2 Variants (except cables)

- Standard version with operating temperature at -40 °C...+70 °C (-40 °F...+158 °F)
- Extreme Environment (XT) variant with operating temperature at -40 °C...+70 °C (-40 °F...+158 °F) and conformal coating for G3 compliance

# FLEX 5000™ I/O

## Positioning versus FLEX™ I/O

- Continue to attach FLEX™ I/O with ControlLogix® 5570 architecture
  - FLEX™ I/O is ACTIVE and supports all generations of Logix 5000™ controllers
  - Longevity letters are available, including description of lifecycle support
- Attach FLEX 5000™ I/O with ControlLogix® 5580 or CompactLogix™ 5380 standard or safety architecture

# ArmorBlock® I/O

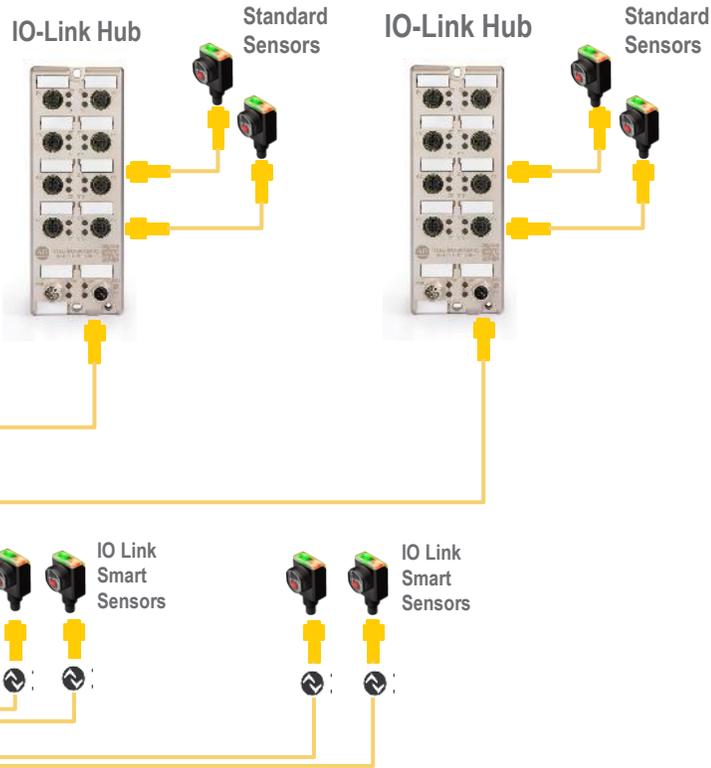

Releases in 2019

## IO-link Hubs Available

1. 16 Digital Input
2. 10 Digital 6 Digital Output
3. 16 Universal Digital

**Shipping**

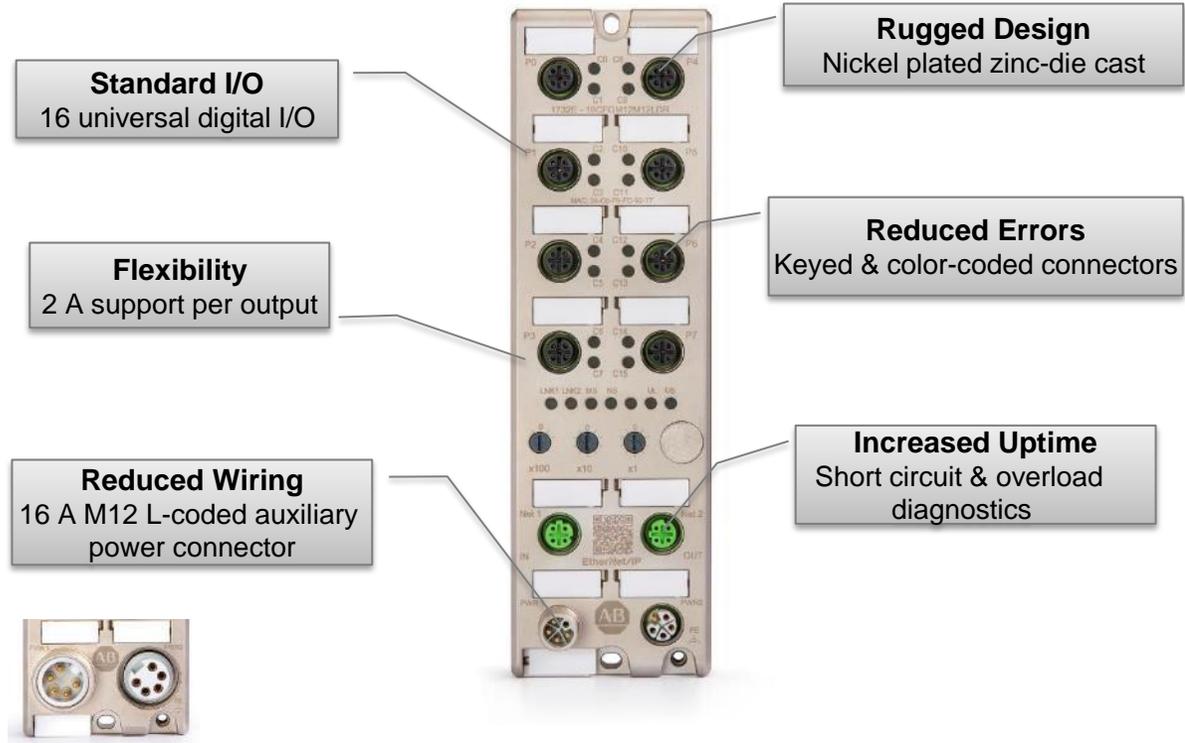

IO-Link Master

Illustration purpose only

## EtherNet/IP Universal Digital Module

**Q4CY19**

Also available in 5-pin 7/8" auxiliary power

# POINT I/O™-K

Designed for harsh environment applications

Rockwell Automation expands the POINT I/O™ conformal coated product portfolio.

The POINT I/O™-K is a globally stocked and readily available product and is recommended for all applications requiring corrosion protections in environments up to ISA Gx and for high sulfur atmospheres.

Catalog No	Technical Description
1734-AENTRK	POINT I/O™ Dual Port Network Adaptor-K
1734-EP24DCK	POINT I/O™ Expansion Power Supply-K
1734-FPDK	POINT I/O™ Field Distributor Module-K
1734-IE4CK	POINT I/O™ 4 Point Analog Input Module-K
1734-IR2K	POINT I/O™ 2 Point RTD Input Module-K
1734-OE4CK	POINT I/O™ 4 Point Analog Output Module-K
1734-SSIK	POINT I/O™ SSI Encoder Module-K
1734-VHSC24K	POINT I/O™ Very High Speed Ctr Module-K
1734-IB8K	POINT I/O™ 8 Point Digital Input Module-K
1734-OB8K	POINT I/O™ 8Point Digital Output Module-K
1734-VTMK	POINT I/O™ Voltage Terminal Module-K
1734-IT2IK	POINT I/O™ 2 Point Thermocouple Input-K
1734-OB8EK	POINT I/O™ 8Point Digital Output Module-K
1734-485ASCK	POINT I/O™ ASCII Interface Module-K

**Available for sale**

# GuardLogix® controller differentiation

New capabilities in the GuardLogix® controller support new applications

## GuardLogix® 5570S

- On-Machine™ versions
- Extreme environment versions

## GuardLogix® 5580S

- Enables higher performance safety I/O (1756, 5069, 5094)
- Advance drive safety instructions
- 1 gigabit (Gb) embedded Ethernet port enables high-speed I/O and motion control for up to 300 nodes
- Scalable as SIL2/PLd or SIL3/PLe options

New applications in these (and other) industries

Entertainment

Packaging

Consumer products

# Compact GuardLogix<sup>®</sup> controller differentiation

New capabilities in the Compact GuardLogix<sup>®</sup> controller support new applications

## Compact GuardLogix<sup>®</sup> 5370S

- This is our current offering for SIL 3, PLe, CAT4 version
- On-Machine™ version
- Fully compatible with 1769 I/O

## Compact GuardLogix<sup>®</sup> 5380S

- Enables higher performance safety I/O (5069, 5094)
- Advance drive safety instructions
- Dual NIC support for linear and Device Level Ring topologies,
- Scalable as SIL2/PLd or SIL3/Plc (AFC November 2019)

NEW

NEW

- 5069-L3100ERMS3: 10 MB Std / 5 MB Sfy; 32 axes; 180 nodes

# What's NEW in AADvance

System Release R1.40

## IMPROVED DIAGNOSTICS

- Ability to remotely reset faults on any processor slice
- Updated CIP Stack (Produce/Consume with Status)
- Offering new development environment based on VS Shell
  - Faster, more intuitive, enhanced capabilities

## ADDITIONAL FUNCTIONALITY / CERTIFICATIONS

- Certified IEC61508 ed.2 – SIL 2 to SIL 3
- Improved documentation generation
- Enhanced ladder and function block editors
  - Drawing capabilities / graphics
- Import/export variables now includes bindings
  - Connections between controllers

## FASTER COMMUNICATIONS

- Peer to Peer between AADvance and Trusted
- Ability to prioritize Ethernet traffic

# What's NEW in Trusted

## Complete Hardware Refresh

### INVESTMENT IN LOGEVITY

- Form factor – no change, function, form & fit compatible with series A.
- Certification – no change existing certification will be maintained for series B
- Software – existing Trusted toolset can be used to program series B

### MORE RUGGED DESIGN

- Improved durability of plastics in more humid/corrosive environments
- Conformal coating is standard
- Principle driver in RoHS compliance
  - Being adopted primarily in Europe, but also in many other industrial countries in some form or another.

### IMPROVED PERFORMANCE

- Applications now execute 2-3x faster

**Rockwell  
Automation**

# Stratix<sup>®</sup> 5800 Modular Switch

*Modular switch with hardware flexibility*

## Overview

New high-tier modular switch platform.

- Layer 2 Access Switching
- Layer 3 Distribution Application
  - Future

## Key Features

- Base Model 10 ports
- Expandable up to 26 ports
- All gig ports
- Wide variety of copper, fiber, and Power over Ethernet (PoE) ports
- Non-Expandable catalog numbers with fixed 10 all gig ports
- Cisco<sup>®</sup> IOS-XE operating system

## Benefits

- Modular in design, allowing customers greater configuration flexibility
- Up to 26 all gig ports for higher throughput and increased productivity

Cisco<sup>®</sup> IOS-XE operating system, on Stratix 5800  
Allows for tighter integration to Cisco's IT ecosystem, a feature that is being requested more often as IT and OT convergence becomes more prevalent within our customers' organizations. (Particularly as it relates to security.)

# FactoryTalk® Network Manager™

## Overview

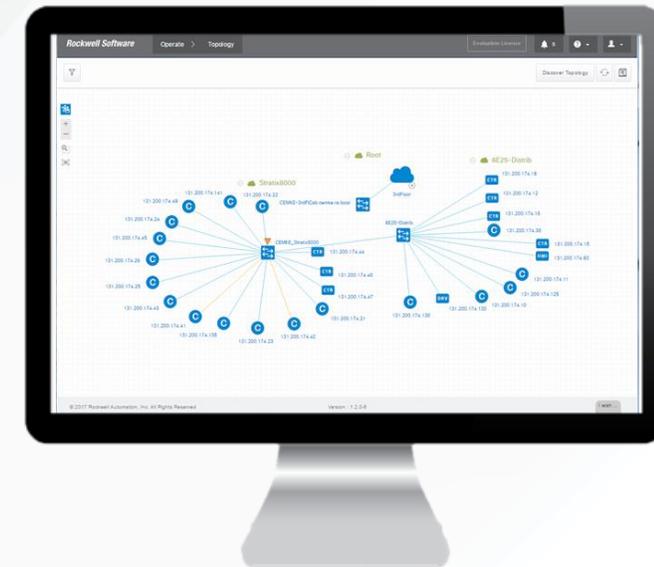

Software solution that helps give you increased network visibility, real time troubleshooting, and simplified configuration and maintenance. Provides insight into the performance of your network operations by getting a closer look into your devices connected on the plant floor.

## Key Features

- Visibility
  - Discovery of plant floor assets
  - Overall topology and device view
  - DLR Overlay and Backplane Bridging
- Troubleshooting
  - Real-time alarms / events
  - Historical retention/log
- Configuration and Maintenance
  - Plug-n-Play (PnP)
  - Remote switch configuration
  - Switch configuration
  - Configuration backup and compare

## Customer Benefits

- Designed to meet the operational needs of the OT personnel
- Discovers end devices and across the backplane
- Supports industrial protocol discovery - DLR

# Networking Conformal Coated Solutions

## Overview

The application of conformal coating protects electrical equipment against the effects of moisture, corrosive gases/vapors, and fungal growth.

## Key Features

- Modules will be exactly the same functionally and will utilize the same FW as the respective uncoated catalogs.

## Customer Benefits

- For applications requiring additional corrosion protections in environments up to ISA G3 and for salt mist and high sulfur atmospheres.

## Target Industries

- Water Wastewater
- Pulp & Paper
- Metal & Mining
- Food & Beverage Processing
- Chemical Processing
- Hydrocarbon Processing
- Oil Rigs
- Marine/Shipboard
- Tire & Rubber

# Dongle Activation

## Questions?

Where do I get the Dongle Drivers for the FactoryTalk Activation Utility?

How do I check if my Dongle is correctly recognized?

Why does my Dongle activation not work?

Why is my license information in the available activation showing as n/a ?

There are several HASP (Dongle) driver manufactures, for example: Aladdin, Macrovision, MAI Digital Security, and WIBU

## Download:

<https://sentinelcustomer.gemalto.com/sentineldownloads/>

Drivers name: **Sentinel HASP/LDK - Windows GUI Run-time Installer**

## Installation:

- 1.Download and extract drivers for Dongle to a temporary directory.
- 2.Unplug Dongle from the USB port
- 3.Go to the directory in which you extracted the drivers.
- 4.Run the HASPUserSetup.exe for drivers installation.
- 5.Follow the prompts. Wait until the installation is complete, then finish.
- 6.Once the installation is complete, plug the Dongle into a USB port.

# Studio 5000 Logix Designer

---

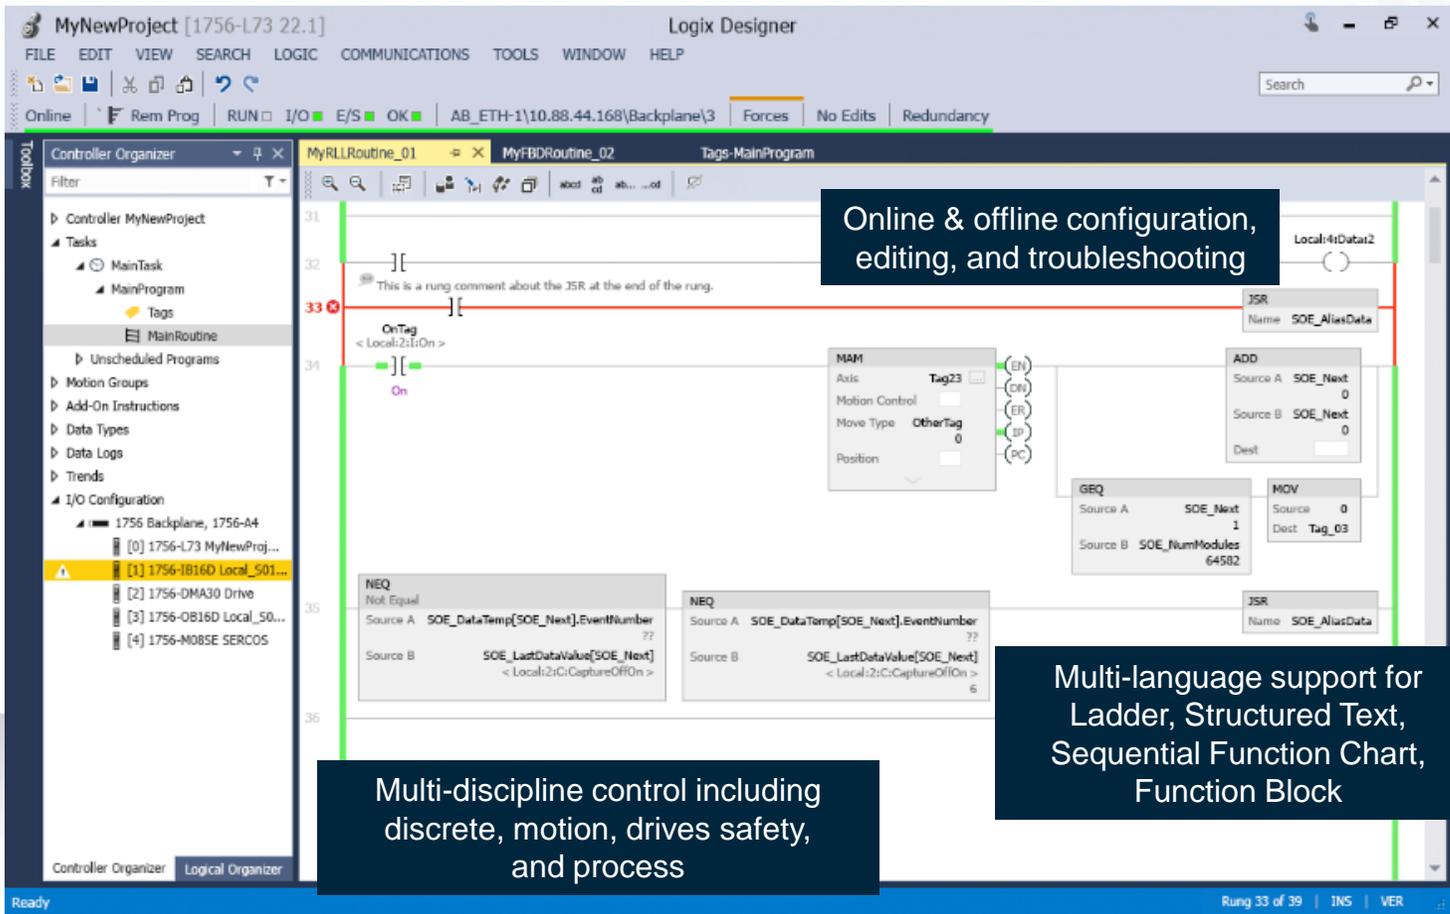

# Studio 5000 Logix Designer application

## ONE DESIGN ENVIRONMENT FOR ALL DISCIPLINES

- Supports comprehensive design and maintenance of the automation control system.

## COLLABORATIVE DEVELOPMENT

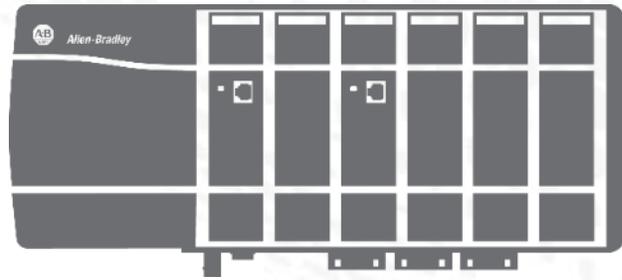

- Focused on delivering automation productivity, ease of use, and simplified workflows.

Online & offline configuration, editing, and troubleshooting

Multi-discipline control including discrete, motion, drives safety, and process

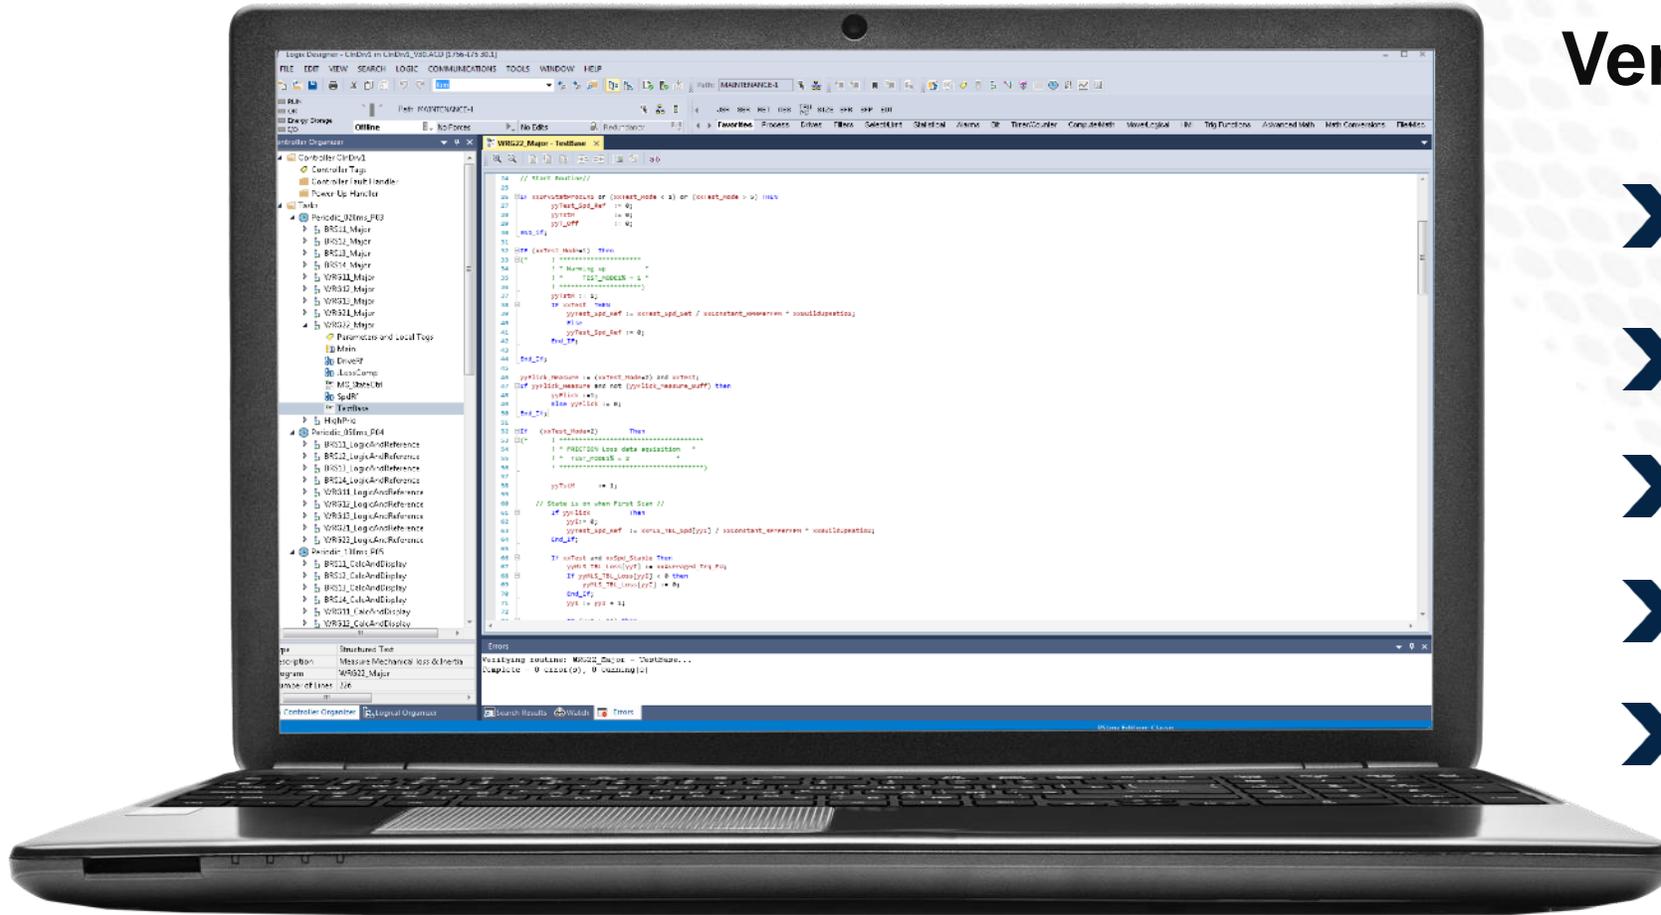

Multi-language support for Ladder, Structured Text, Sequential Function Chart, Function Block

Single Programming Environment for ALL Logix Controllers

# Studio 5000 Logix Designer®

What's New?

## Version 32 Summary

- Extended Data Types (64-Bit Math)
- Tag-based Alarm Enhancements
- New FBD Functions
- Productivity Enhancements
- PhaseManager™ Support

# Extended Data Types

## 64-Bit Math

### Overview

Now use new extended data types to calculate more precise or larger values for use in your calculations.

### Benefits

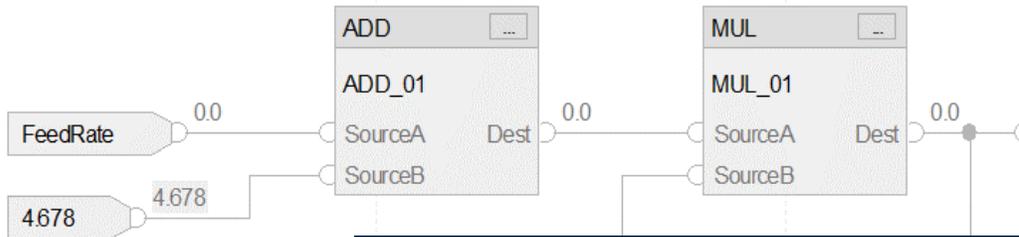

- Calculate more precise values in your calculations with higher resolution
- More flexibility to comply with open/third-party communications standards. For example, HART

<b>Boolean</b>	<b>BOOL</b>
<b>Short Integer</b>	<b>SINT</b>
<b>Integer</b>	<b>INT</b>
<b>Double Integer</b>	<b>DINT</b>
<b>Real Number</b>	<b>REAL</b>
<b>Unsigned Short Integer</b>	<b>USINT</b>
<b>Unsigned Double Integer</b>	<b>UDINT</b>
<b>Unsigned Integer</b>	<b>UINT</b>
<b>Unsigned Long Integer</b>	<b>ULINT</b>
<b>Long Real Number</b>	<b>LREAL</b>
<b>Long Integer</b>	<b>LINT</b>

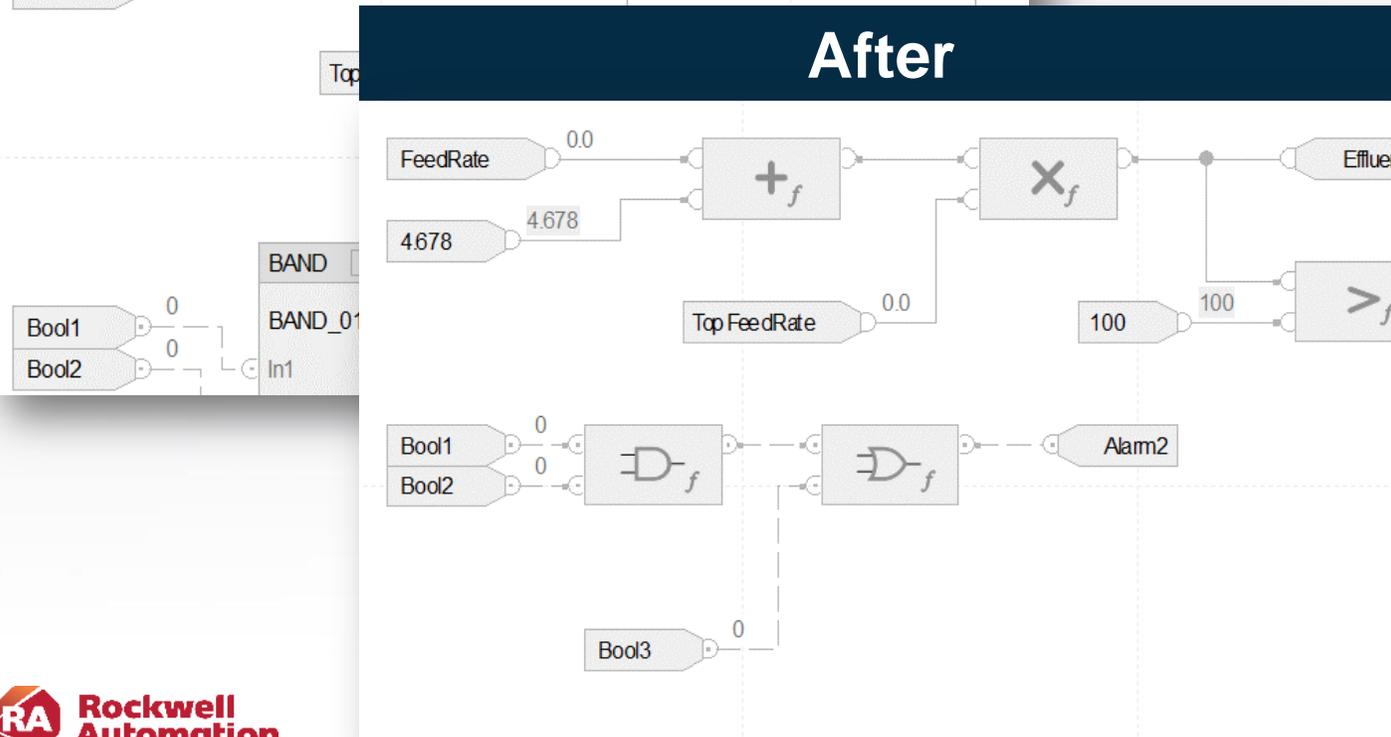

Supported in Bulletin 5580, 5480, and 5380 Controllers Only

# Function Block Functions

## Before

## After

## Overview

Simpler function block construction mitigates how much configuration is needed, lowering overall design times

## Benefits

- Faster troubleshooting with simpler user interface
- Drag and drop functions available without additional configuration
- Increased function performance leads to lower controller utilizations
- New functions to replace existing instructions
  - Smaller visual footprint
  - No backing tag
  - More intuitive symbol-based functions
  - Compare/Compute/Boolean Logic Instructions

# PhaseManager™ Support

Use Phase Instructions in High Performance Architecture

## PhaseManager™ supported in High Performance Controllers

V32 Logix Designer

Previously Phase Instructions only available for CompactLogix 5370, Compact GuardLogix® 5370, ControlLogix® 5570 and GuardLogix 5570 controllers.

# Productivity Enhancements

## Online Editing

### User-Defined Data Type

- Design UDT with excess memory
- Rename unused members while editing online
- Download not required

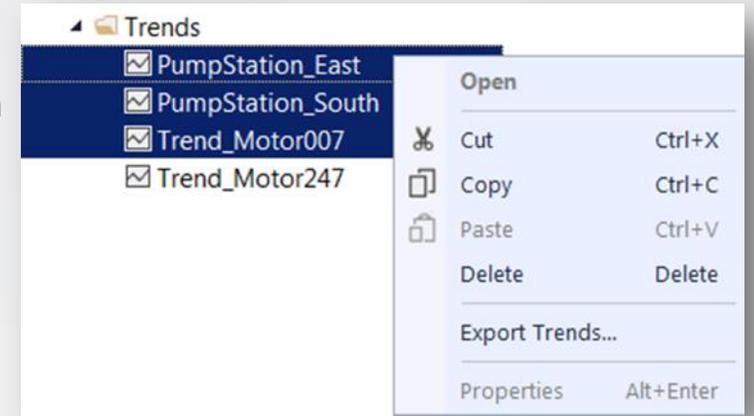

### Tags on Scan

- Rename tags that are being trended by:
  - Logix Designer application
  - FactoryTalk® Linx software
  - PanelView™ 5000 HMI

## Controller Organizer

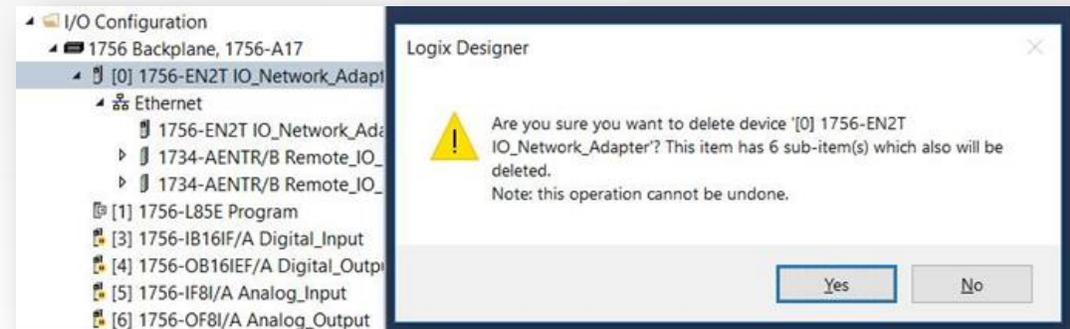

### Trend Management: Multi-selection

- Copy/Cut/Paste
- Delete
- Export/Import

### Nested Delete

- Edit I/O Trees simply by deleting nested groups
